Trustees show they can issue their own bonds without raising taxes.

Trustees' Financial Presentation 7-14-20, Page 5

Everyone agrees new fire stations should be built.

The question is financing: Who should pay for the bond?

The Township CAN issue "Bonds without Voter Approval"

- WILL NOT RAISE TAXES
- Can start immediately and take advantage of same low interest rates.¹
- Would leave the township with about \$600,000 each year for any "emergency" expense, from their special business and employee taxes² annual revenue of over \$1 million.
- Will force Trustees to build more cost-effective stations.
- Can pay off the debt early.¹

Why are Trustees asking residents to pass this tax levy when they have this option? Vote NO on Issue 1

¹ Per Bond Counsel with 40 years of experience ² 2019 Revenue: JEDD \$769,892, TIF \$262,529, General/Fire Capital Projects \$85,398. Paid for by ACT Affordable Concord Taxes
